When all the sites in the camp are full, and there are no events planned for Cullen Park, we have overflow available in the park area.

1 hookup is available by pavillion #1, with a 30 amp electrical outlet available on the light pole.

1 hookup is available out of the silver box located in the park at the base of light poles. There is a long cord in the box that will reach almost out to the street.

Please park off the street on the gravel or concrete.

Try to stay on the gravel as there is sand under the grass in the park area and you could get stuck.
