 No camping in any other areas or in un-numbered sites
 Self-register at park office

North Hero State Park

Welcome to North Hero State Park. Land for this 399-acre park was purchased in 1963. Nearly one-third of the land area lies below 100 feet in elevation. Lake Champlain fluctuates from about 95 to 101 feet above sea level, subjecting much of the park to seasonal inundation. The forest type in the floodplain area is uncommon in Vermont, found only around Lake Champlain. North Hero lakeside floodplain forest is noted for its size, relatively undisturbed condition, and the valuable wildlife habitat it provides.

Habitat improvement at North Hero has paid off. White-tailed deer are common. A variety of migratory waterfowl - mallards, blacks, wood ducks and more - nest in the wooded wetlands. Ruffed grouse and American woodcock find favorable conditions. Even fish - chain pickerel and northern pike - spawn and feed in the flooded areas. Map turtles, as well as other turtle species, nest along the beach. A section of the beach is roped off during nesting season so as to not disturb the turtles.

Camping

Remote camping is available on a limited number of campsites for \$5 per person per night. Some sites may be accessed by vehicle; others are walk-in. Portable toilets and drinking water are available in the remote camping loop. Self registration is available at the park office. Camping is allowed only at numbered sites in the designated area. Two campsites are made available exclusively for paddlers.

Recreating and Sightseeing in the Area:
